APPLICATION FACE RECOGNITION

INTELLIGENT CONTROL SYSTEM
ACCESS CONTROL SYSTEM
MARKETING SOLUTION
FACTORY AUTOMATION
IOT PRODUCT
SAFETY DRIVING

FUNCTION OF TECHNOLOGY

- * Image/Video Pre-Processing
Retaining pre-treatment processing optimization technology and know-how for analysis of image and video
- * Image/Video Searching & Mining
Retaining key-point extraction and analysis technology for extracting meaningful information from image
- * Identify/Track Object Multi Class
Algorithm optimization technology for identifying multi-objects and tracking between multi-cameras
- * Lightness technology of image processing
Accumulated process optimization and lightening ability for driving in low level computing environment

WIFI SENSING MORNING Technology SMART solution for SMART CITY FACE 2 PHONE SENSING

.. detecting signal generated from Wi-Fi module which is built in mobile phone, recognizing MAC Address which is the unique ID of the Wi-Fi module and enabling to detect Wi-Fi information in switched off state of Wi-Fi module.

SENSING technology offers you access to valuable insights such as:

- Human traffic
- Duration of stay
- Returning visitors
- Flow patterns
- Tourist (nationality) rate analysis
- Detection of deviation from the normal
- Infectious case tracking and etc

PRIVACY MASKING S/W PROTECT PRIVATE LIFE

i -masking realtime private masking solution

Protect private life through mosaic technology processing technology applied to teacher or other persons other than your child in real-time verification of video through network camera.

* Applicable object :Daycare center, ATM camera

Not OpenCV, but own developed our solution adopted private life protection program adopting 3D face recognition technology, so it can raise reliability of face-mosaic.

Intelligent control system
Crime prevention
Finding missing child

Access control system
Diligence/Indolence control
Vehicle access control

Marketing solution
VIP customer management
Logistic resource control

Factory Automation
Detecting error
Automated management

IoT products
Internet of Things goods
Smart Product

Safety driving
Message & drowsiness prevention
Alarm for safety distance
